Important information for persons without a permanent address in the Republic of Bulgaria

Pursuant to the Law for Administrative Offences and Sanctions referring to imposing sanctions for administrative offences, *in case the offender has no permanent address in the Republic of Bulgaria*, the protocol drawn up for the offence must be submitted immediately to the authority executing the punishment. Written explanations or objections of the driver of the motor vehicle must be attached to the protocol (Art. 44, Para 4);

The authority executing the punishment is obliged to make a statement on the file certifying the administrative offence and the sanction within a one-month deadline upon receiving the documents.

In case a decree is issued for imposing a sanction to an offender without a permanent address in the Republic of Bulgaria, the offender pays the fine to a bank account quoted in the decree.

The fines imposed for violations of the Road Traffic Act are paid by means of bank transfers. The amount is transferred to a bank account as quoted in the decree for imposing the sanction.

Fines are paid in all branches of the banks in BGN after a decree for imposing the sanction has been issued to the offender.

With the aim of prevention, police officers perform regular inspections into cafes and restaurants near the roads, petrol stations and car parks, regulate the traffic in order to avoid traffic jams, provide assistance in case of emergencies with motor vehicles and react in case of road accidents. To protect foreign passengers through the country, police authorities may perform thorough inspections of suspicious persons and cars.

IMPORTANT!**Do not drive if you haven't had enough sleep or if you feel exhausted!**

Foreign car drivers very often have accidents in Bulgaria because they fall asleep while driving, after having driven for hundreds of kilometers without a break.

So, as soon as you feel the first signs of weariness and drowsiness, you must stop in a suitable place to take a break, however short.

Do not stop in isolated areas! To take a break, you should only stop in the daytime in busy places – near motels, petrol stations or in guarded parking lots!

In case you need to stay for the night, you should stay in motels along your travel route, or in hotels in big cities, and leave your car in a guarded parking lot.

In case you need to stop during the night, do it only in well-lit inhabited places.

You should exchange money only in exchange bureaus and banks.

When stopping in parking lots, turn on the alarm and other anti-theft systems and close the windows tight.

Do not leave in the compartment of a parked car bags containing personal ID, money and valuables.

In case of a problem on the road, call number 112!
