THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Decision No 574/2007/EC of the European Parliament and of the Council of 23 May 2007 establishing the External Borders Fund for the period 2007 to 2013 as part of the General programme ‘Solidarity and Management of Migration Flows’⁽¹⁾, and in particular Article 25 and Article 37(4) thereof,

Whereas:

- (1) In the light of the experience gained since the launch of the External Borders Fund, it is appropriate to clarify the obligations in Commission Decision 2008/456/EC⁽²⁾ relating to transparency, equal treatment and non-discrimination when implementing projects.
- (2) Member States are required to report on the implementation of the annual programmes. It is therefore appropriate to clarify which information Member States have to provide.
- (3) In order to reduce the administrative burden on the Member States and to provide greater legal certainty the rules on the eligibility of expenditure of actions co-financed by the External Borders Fund should be simplified and clarified.
- (4) Most of the changes introduced by this Decision should apply immediately. However, since the 2009 and 2010

annual programmes are ongoing, the revised rules on the eligibility of expenditure of actions co-financed by the External Borders Fund should apply from the 2011 annual programme. Member States should nonetheless be given the possibility to apply those rules earlier under certain conditions.

- (5) In accordance with Articles 1 and 2 of the Protocol on the position of Denmark, annexed to the Treaty on European Union and the Treaty establishing the European Community, Denmark has implemented Decision No 574/2007/EC in its national law and is therefore bound by this Decision.
- (6) This Decision constitutes a development of the provisions of the Schengen *acquis* in which the United Kingdom does not take part, in accordance with Council Decision 2000/365/EC of 29 May 2000 concerning the request of the United Kingdom of Great Britain and Northern Ireland to take part in some of the provisions of the Schengen *acquis*⁽³⁾ and the subsequent Council Decision 2004/926/EC of 22 December 2004 on the putting into effect of parts of the Schengen *acquis* by the United Kingdom of Great Britain and Northern Ireland⁽⁴⁾. The United Kingdom is therefore not bound by it or subject to its application.
- (7) This Decision constitutes a development of the provisions of the Schengen *acquis* in which Ireland does not take part, in accordance with Council Decision 2002/192/EC of 28 February 2002 concerning Ireland’s request to take part in some of the provisions of the Schengen *acquis*⁽⁵⁾. Ireland is therefore not bound by it or subject to its application.

- (8) As regards Iceland and Norway, Decision No 574/2007/EC constitutes a development of provisions of the Schengen *acquis* within the meaning of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the association of those two States with the implementation, application and development of the Schengen *acquis* ⁽¹⁾, which fall within the areas referred to in Article 1, points A and B of Council Decision 1999/437/EC of 17 May 1999 on certain arrangements for the application of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the association of those two States with the implementation, application and development of the Schengen *acquis* ⁽²⁾.
- (9) As regards Switzerland, Decision No 574/2007/EC constitutes a development of the provisions of the Schengen *acquis* within the meaning of the Agreement signed by the European Union, the European Community and the Swiss Confederation on the latter's association with the implementation, application and development of the Schengen *acquis* which fall within the areas referred to in Article 4(1) of the Council decision on the signing, on behalf of the European Community, and on the provisional application of certain provisions of this Agreement.
- (10) The measures provided for in this Decision are in accordance with the opinion of the common Committee 'Solidarity and management of Migration Flows' established by Decision No 574/2007/EC.
- (11) Decision 2008/456/EC should therefore be amended accordingly,

'ANNEX XI

RULES ON THE ELIGIBILITY OF EXPENDITURE EXTERNAL BORDERS FUND

I. General Principles

I.1. Basic Principles

1. In accordance with the basic act, for it to be eligible, expenditure must be:

- (a) within the scope of the Fund and within its objectives, as described in Articles 1 and 3 of the basic act;
- (b) within the eligible actions listed in Articles 4 and 6 of the basic act;
- (c) needed to carry out the activities covered by the project, forming part of the multiannual and annual programmes, as approved by the Commission;
- (d) reasonable and comply with the principles of sound financial management, in particular, value for money and cost-effectiveness;
- (e) incurred by the final beneficiary and/or the partners in the project, who shall be established and registered in a Member State, except in the case of international public sector organisations set up by intergovernmental agreements, and specialised agencies set up by such organisations, the International Committee of the Red Cross (ICRC) and the International Federation of National Red Cross and Red Crescent Societies. With regard to Article 39 of this Decision, the rules applicable to the final beneficiary shall apply *mutatis mutandis* to the partners in the project;
- (f) incurred in accordance with the specific provisions in the grant agreement.

2. In the case of multiannual actions within the meaning of Article 16(6) of the basic act, only the part of the action co-financed by an annual programme is considered to be a project for the application of these eligibility rules.

3. Projects supported by the Fund shall not be financed by other sources covered by the Community budget. Projects supported by the Fund shall be co-financed by public or private sources.

I.2. Budget of a project

The budget of a project shall be presented as follows:

<i>Expenditure</i>	<i>Income</i>
+ Direct costs (DC)	+ Contribution from the EC (<i>defined as the lowest of the three amounts indicated in Article 12 of this Decision</i>)
+ Indirect costs (<i>fixed percentage of DC, defined in the grant agreement</i>)	+ Contribution from the final beneficiary and the partners in the project
	+ Contribution from third parties
	+ Receipts generated by the project
= Total Eligible Cost (TEC)	= Total Income (TI)

The budget shall be balanced: Total Eligible Cost shall be equal to Total Income.

I.3. *Income and Non-Profit Principle*

1. Projects supported by the Fund must be of a non-profit-making nature. If, at the end of the project, the sources of income, including receipts, exceed expenditure, the contribution to the project from the Fund shall be reduced accordingly. All sources of income for the project must be recorded in the final beneficiary's accounts or tax documents, and must be identifiable and controllable.
2. Project income shall come from all financial contributions granted to the project by the Fund, from public or private sources, including the final beneficiary's own contribution, and from any receipts generated by the project. "Receipts" for the purpose of this rule covers revenue received by a project during the eligibility period as described in point I.4, from sales, rentals, services, enrolment/fees or other equivalent income.
3. The Community contribution resulting from the application of the principle of non-profit, as referred to under Article 12(c) of this Decision, will be the "total eligible cost" minus the "contribution from third parties" and "receipts generated by the project".

I.4. *Eligibility Period*

1. Costs relating to a project must be incurred and the respective payments (except for depreciation) made after 1 January of the year referred to in the financing decision approving the annual programmes of the Member States. The eligibility period is until 30 June of the year N (*) + 2, meaning that the costs relating to a project must be incurred before this date.
2. An exception to the eligibility period provided for in paragraph 1 is made for technical assistance for Member States (refer to point IV.3).

(*) Where "N" is the year referred to in the financing decision approving the annual programmes of the Member States.

I.5. *Record of expenditure*

1. Expenditure shall correspond to payments made by the final beneficiary. These must be in the form of financial (cash) transactions, with the exception of depreciation.
2. As a rule, expenditure shall be justified by official invoices. Where this cannot be done, expenditure shall be supported by accounting documents or supporting documents of equivalent evidential value.
3. Expenditure must be identifiable and verifiable. In particular,
 - (a) it must be recorded in the accounting records of the final beneficiary;
 - (b) it must be determined in accordance with the applicable accounting standards of the country where the final beneficiary is established and with the usual cost accounting practices of the final beneficiary; and
 - (c) it must be declared in accordance with the requirements of applicable tax and social legislation.
4. As necessary, the final beneficiaries are obliged to keep certified copies of the accounting documents justifying income and expenditure incurred by the partners in relation to the project concerned.
5. The storage and processing of records provided for in paragraphs 2 to 4 must comply with the national data protection legislation.

I.6. *Territorial scope*

1. Expenditure for actions described in Articles 4 and 6 of the basic act must be incurred in the territory of the Member States, by the final beneficiaries defined in point I.1.1.(e), with the exception of:
 - expenditure implementing actions relating to the general objective defined in Article 3(1)(d) of the basic act; expenditures for those actions may be incurred in the territory of the Member States and in third countries,

— actions relating to the surveillance of external borders; those actions may take place both within and beyond the territory of Member States.

2. Partners in the project registered and established in third countries may participate in projects only on a no-cost basis, except in the case of international public sector organisations set up by intergovernmental agreements, and specialised agencies set up by such organisations, the International Committee of the Red Cross (ICRC) and the International Federation of National Red Cross and Red Crescent Societies.

II. Categories of eligible costs (at project level)

II.1. Direct eligible costs

The direct eligible costs of the project are costs that, with due regard to the general conditions of eligibility set out in part I, are identifiable as specific costs directly linked to the implementation of the project. Direct costs shall be included in the estimated overall budget of the project.

The following direct costs are eligible:

II.1.1. Staff costs

1. The cost of staff assigned to the project, comprising actual salaries plus social security charges and other statutory costs is eligible, provided that this corresponds to the beneficiary's usual policy on remuneration.
2. For international organisations, the eligible staff cost may include provisions to cover statutory obligations and entitlements relating to remuneration.
3. The corresponding staff costs of staff of public bodies are eligible to the extent that they relate to the cost of activities which the relevant public body would not carry out if the project concerned were not undertaken; this staff shall be seconded or assigned to the implementation of the project by a written decision of the final beneficiary.
4. Staff costs shall be detailed in the forward budget, indicating functions and number of staff.

II.1.2. Travel and subsistence costs

1. Travel and subsistence costs are eligible as direct costs for staff or other persons who participate in the activities of the project and whose travel is necessary for the implementation of the project.
2. Travel costs shall be eligible on the basis of the actual costs incurred. Reimbursement rates shall be based on the cheapest form of public transport and flights shall, as a rule, be permitted only for journeys over 800 km (return trip), or where the geographical destination justifies travelling by air. Where a private car is used, reimbursement is normally made either on the basis of the cost of public transport, or on the basis of mileage rates in accordance with published official rules in the Member State concerned or used by the final beneficiary.
3. Subsistence costs shall be eligible on the basis of real costs or a daily allowance. Where an organisation has its own daily rates (subsistence allowances), they shall be applied within ceilings established by the Member State in accordance with national legislation and practice. Subsistence allowances are normally understood to cover local transport (including taxis), accommodation, meals, local telephone calls and sundries.

II.1.3. Equipment

II.1.3.1. General rules

Costs pertaining to the acquisition of equipment (based on any of the following: rental, leasing, purchase based on the full or partial cost, or depreciation of purchased assets) are only eligible if they are essential to the implementation of the project. Equipment shall have the technical properties needed for the project and comply with applicable norms and standards.

II.1.3.2. Renting and leasing

Expenditure in relation to renting and leasing operations is eligible for co-financing subject to the rules established in the Member State, national legislation and practice and the duration of the rental or lease for the purpose of the project.

II.1.3.3. Purchasing

1. Costs pertaining to the acquisition of equipment (systems, operating equipment, means of transport, inter alia, as referred to in Article 5(1)(c) to (f) of the basic act) are eligible in accordance with national rules. Such costs are eligible for co-financing on the basis of the full or partial cost of the purchase if:
 - (a) they are directly linked to the realisation of the project;
 - (b) incurred in accordance with national procurement rules established in the Member State;
 - (c) the equipment has the technical characteristics necessary for the project and complies with applicable norms and standards;
 - (d) the equipment will continue to be used for the same objectives pursued by the project, after the day of purchase and for a minimum duration of:
 - three years or more for Information and Communication Technology (ICT) equipment,
 - five years or more for other types of equipment such as operating equipment and means of transport, except for the ones indicated below,
 - ten years for helicopters, vessels and aircrafts.
2. Alternatively, costs for the abovementioned equipment may be eligible on the basis of depreciation in accordance with national rules. In that case conditions in (a), (b) and (c) in paragraph 1 shall apply. Furthermore, the following conditions must also be satisfied:
 - (a) Where equipment is purchased before or during the lifetime of the project, the portion of equipment depreciation is eligible on the basis of the duration of use for the project and the rate of actual use for the project.
 - (b) Equipment that was purchased before the lifetime of the project, but which is used for the purpose of the project, is eligible on the basis of depreciation. However these costs are ineligible if the equipment was originally purchased through a Community grant.
 - (c) Purchase costs of equipment shall correspond to normal market costs and the value of the items concerned is written off in accordance with the tax and accounting rules applicable to the final beneficiary.

II.1.4. Real estate

II.1.4.1. General rules

In the case of either purchase of real estate, construction or renovation of real estate, or rental of real estate, it shall have the technical properties needed for the project and comply with the applicable norms and standards.

II.1.4.2. Purchase, construction or renovation

1. Where the acquisition of real estate is essential for implementation of the project and is clearly linked with its objectives, the purchase of real estate, i.e. buildings already constructed, or construction of real estate, is eligible for co-financing on the basis of the full or partial cost, or on the basis of depreciation, under the conditions set out below, without prejudice to the application of stricter national rules:
 - (a) a certificate is obtained from an independent qualified valuer or duly authorised official body establishing that the price does not exceed the market value, either attesting that the real estate is in conformity with national regulations or specifying the points which are not in conformity that the final beneficiary plans to rectify as part of the project;
 - (b) the real estate has not been purchased through a Community grant at any time prior to the implementation of the project;

- (c) the real estate is to be used solely for the purpose stated in the project for a period of at least 10 years after the end date of the project unless the Commission specifically authorises otherwise in the case of co-financing of the full or partial costs; in the case of co-financing on the basis of depreciation this period is reduced to 5 years;
- (d) the purchase of the real estate respects the principles of value for money and cost-effectiveness and is being considered as proportionate to the aim to be achieved through the implementation of the project;
- (e) in the case of co-financing on the basis of depreciation, only the portion of the depreciation of these assets corresponding to the duration of use for the project and the rate of actual use for the project is eligible; depreciation shall be calculated according to national accounting rules.

2. Expenses for renovation of real estate are eligible for co-financing on the basis of the full or partial cost or on the basis of depreciation. In the case of renovation costs only conditions (c) and (e) in paragraph 1 apply.

II.1.4.3. Rental

Rental of real estate is eligible for co-financing where there is a clear link between the rental and the objectives of the project concerned, under the conditions set out below and without prejudice to the application of stricter national rules:

- (a) the real estate has not been purchased through a Community grant;
- (b) the real estate is to be used solely for implementation of the project. If not, only the portion of the costs corresponding to the use for the project is eligible.

II.1.5. Consumables, supplies and general services

The costs of consumables, supplies and general services are eligible provided that they are identifiable and directly necessary for the implementation of the project.

II.1.6. Subcontracting

1. As a general rule, final beneficiaries must have the capacity to manage the projects themselves. The amount corresponding to tasks to be subcontracted under the project will have to be clearly indicated in the grant agreement.
2. Expenditure relating to the following subcontracts is not eligible for co-financing by the Fund:
 - (a) subcontracting of tasks relating to the overall management of the project;
 - (b) subcontracting that adds to the cost of the project without adding proportionate value to it;
 - (c) subcontracting with intermediaries or consultants where payment is defined as a percentage of the total cost of the project, unless such payment is justified by the final beneficiary by reference to the actual value of the work or services provided.
3. For all subcontracts, subcontractors shall undertake to provide all audit and control bodies with all the necessary information relating to subcontracted activities.

II.1.7. Costs deriving directly from the requirements linked to Union co-financing

Costs needed to meet the requirements linked to Union co-financing, such as publicity, transparency, evaluation of the project, external audit, bank guarantees, translation costs, etc., are eligible as direct costs.

II.1.8. Expert fees

Legal consultancy fees, notarial fees and costs of technical and financial experts are eligible.

II.2. Indirect eligible costs

1. The eligible indirect costs for the action are those costs which, with due regard for the conditions of eligibility described in point I.1.1, are not identifiable as specific costs directly linked to performance of the project.

2. By way of derogation from point I.1.1(e) and point I.5, the indirect costs incurred in carrying out the action may be eligible for flat rate funding fixed at not more than 2,5 % of the total eligible direct costs.
3. Organisations receiving an operating grant from the Union budget cannot include indirect costs in their forward budget.

III. Ineligible expenditure

The following costs are not eligible:

- (a) VAT, except where the final beneficiary can show that he is unable to recover it;
- (b) return on capital, debt and debt service charges, debit interest, foreign exchange commissions and exchange losses, provisions for losses or potential future liabilities, interest owed, doubtful debts, fines, financial penalties, litigation costs, and excessive or reckless expenditure;
- (c) entertainment costs exclusively for project staff; reasonable hospitality costs at social events justified by the project, such as an event at the end of the project or meetings of the project steering group, are permitted;
- (d) costs declared by the final beneficiary and covered by another project or work programme receiving a Community grant;
- (e) purchase of land;
- (f) contributions in kind.

IV. Technical assistance at the initiative of Member States

1. All the costs necessary for the implementation of the Fund by the responsible authority, delegated authority, audit authority, certifying authority or other bodies assisting in the tasks listed in paragraph 2 are eligible under technical assistance within the limits specified in Article 18 of the basic act.
2. This includes the following measures:
 - (a) expenditure relating to the preparation, selection, appraisal, management and monitoring of actions;
 - (b) expenditure relating to audits and on-the-spot checks of actions or projects;
 - (c) expenditure relating to evaluations of actions or projects;
 - (d) expenditure relating to information, dissemination and transparency in relation to actions;
 - (e) expenditure on the acquisition, installation and maintenance of computerised systems for the management, monitoring and evaluation of the Funds;
 - (f) expenditure on meetings of monitoring committees and sub-committees relating to the implementation of actions; this expenditure may also include the costs of experts and other participants in these committees, including third-country participants, where their presence is essential to the effective implementation of actions;
 - (g) expenditure for the reinforcement of the administrative capacity for the implementation of the Fund.
3. Activities linked to technical assistance must be performed and the corresponding payments made after 1 January of the year referred to in the financing decision approving the annual programmes of the Member States. The eligibility period lasts until the deadline for the submission of the final report on the implementation of the annual programme.
4. Any procurement must be carried out in accordance with national procurement rules established in the Member State.

5. Member States may implement technical assistance measures for this Fund together with technical assistance measures for some or all of the four Funds.
